MOST SUCCESSFUL TARGET PRACTICE

Ever Held at Any Range in the State—Col. J. Tandy Ellis Says Excellent

MARKSMANSHIP BEING DEVELOPED

The all State team rifle practice that closes here today is one of the most successful ever held at any range in this state says Capt. J. Tandy Ellis and I wish you would say through your paper that the officers and men encamped here appreciate the courtesies shown them, the friendly smile and the glad hand that has been so freely given, and has made the few days stay so pleasant that we all with no exception look forward with pleasure to our next annual meeting. He and other officers are well pleased with the sanitary conditions of the camp and give Capt. Dr. W. K. Nisbet due credit for the excellent camp conditions. The match decided Friday was the Company team match and was won by Company B of the 3rd regiment. 1st score 1065 out of a possible 1500, 2nd place was won by Company A of the 1st regiment score 1081, 3rd place Company I of 2nd regiment score 1012, 4th place Company G of 2nd regiment score 982, 5th place Company G 3rd regiment score 930. The prizes were \$100.00 to 1st, \$50.00 to 2nd and \$25.00 to 3rd. The regimental team match was won Saturday by the 2nd regiment, the prize being the team trophy. The Governors match was decided Tuesday and won by Major Victor K. Dodge, of the Ordnance Department, Lexington, Ky., 1st.

Maj. Jackson Morris, Pineville, Ky., 2nd.

Capt. Jas. DeWeese, 3rd Infantry, Hartford, Ky., 3rd the prizes in this match were, first a gold medal set with a handsome diamond, and 60 per cent of the entrance fees, 2nd 25 per cent of the entrance fees, 3rd 15 per cent of the entrance fees. Following is the high score made on each range during the shoot:

Two hundred yards, slow fire, Major Jackson Morris, 46.

Two hundred yards, rapid fire, Sergt. Thos. Peyton, 3rd infantry, and Private Ross, 1st infantry, each 48.

Six hundred yards, Capt. Sidney Smith, 1st infantry, 49.

Eight hundred yards, Major V. K. Dodge, 49.

Skirmish, Major V. K. Dodge, eighty-five.

One thousand yards, Capt. J. R. Samis, 44.

For the benefit of those companies that did not attend the Anniston maneuvers a camp of instruction will be established here Sept. 17th under command of Capt. C. H. Morrow, U. S. A.

CHAS. BELL DIES OF INJURIES

Fell Between Moving Train at Atkinson Sunday Morning

BOTH LEGS AMPUTA.

TED AT HOSPITAL

Chas. Bell, through freight brakeman, fell between the cars at Atkinson, one mile north of Madisonville, Sunday morning about 5 o'clock, and had both legs badly crushed. He was hurried to the St. Bernard hospital at this place on a special train. On arrival here it was found necessary to amputate both legs. He never rallied from the shock and gradually grew worse until death took him at five o'clock Monday morning. His wife and children were notified and arrived here on train 52 Sunday. The remains were shipped to Crofton, his home, for interment. Mr. Bell had been in the employment of the L. & N. for some years and was a popular and valued employee.

For Women Who Care

Of course you use an antiseptic in your family and in the care of your own person, and you want the best.

Instead of what you have been using such as liquid or tablet antiseptics or peroxide, won't you please try Paxtine, a concentrated antiseptic powder to be dissolved in water as needed.

Paxtine is more economical, more cleansing, more germicidal and more healing than anything you ever used.

Paxtine
ANTISEPTIC

In the toilet—to cleanse and whiten the teeth, remove tartar and prevent decay. To disinfect the mouth, destroy disease germs and purify the breath. To keep artificial teeth and bridgework clean and odorless. To remove nicotine from the teeth and purify the breath after smoking. To eradicate perspiration odors by sponge bathing.

As a medicinal agent for local treatment of feminine ills where pelvic catarrh, inflammation and ulceration exist, nothing equals hot douches of Paxtine. For ten years the Lydia E. Pinkham Med. Co. has been regularly advising their patients to use it because of its extraordinary cleansing, healing and germicidal power. For this purpose alone Paxtine is worth its weight in gold. Also for nasal catarrh, sore throat, inflamed eyes, cuts and wounds. All druggists, 25 and 50 cents a box.

W. R. BRASHER APPOINTED ASSISTANT MINE INSPECTOR

Will Make Good Man For This Important Position

W. R. Brasher, of St. Charles, who has been an employee of the St. Bernard Mining Company for a number of years, has been appointed to the responsible position of Assistant Mine Inspector to succeed T. O. Long, whose time has expired. Mr. Brasher is well known in this territory and is fully competent to fill the position. Mr. Long, the retiring inspector, proved a faithful and capable man and his work gave entire satisfaction.

The Newspaper and Children

"Some one has asked me the question: 'Shall we allow our boys and girls to read the newspapers?' Of course, we all know why such a question is asked. There is much in our daily paper we wish might be eliminated; the murder trials, divorce proceedings, crimes without number in all their revolting aspects and what Lowell calls the 'stagnant goose-ponds of village gossip.' But since fathers and mothers read the daily papers, they cannot consistently prohibit their children from doing it. The newspaper is a necessity. It is for each parent to bring into his home as clean a sheet as he can find, knowing that the innocent eyes of his little children will cau its pages."—S. L. M. for September.

Not a Bottle Returned

Experience of an old Druggist: "I have sold nearly all the Hughes' Tonic bought of you, and not a bottle has been returned. I have been in the drug business for twenty-five years and have never sold anything that gave such satisfaction." Sold by Druggists—50c and \$1.00 bottles. BOY SCOUTS

In Kentucky Will Be Used in Conserving Birds and Animals, Many Hunters' Licenses Issued

Having formulated a plan by which the great army of Boy Scouts of America will be drafted into service for the conservation of birds and animals, J. Quincy Ward, Executive Agent of the Kentucky Fish and Game Commission, has set to work to put the plan into operation.

He received a letter from G. H. Merriott, New York, Secretary of Editorial Board of the Boy Scouts of America, in which Merriott promises to furnish to Ward a list of the different troop leaders in this state. If the plan is successful in Kentucky it will be developed in other states.

TOM THUMB WEDDING

Unique Entertainment to be Given by Ladies of The Christian Church

One of the most unique and enjoyable entertainments of the season will be the Tom Thumb Wedding, or marriage of Miss Midget, given under the auspices of the Ladies Aid of the Christian Church at the Temple Theatre, Friday night, September 6th. This entertainment under the direction of Miss May Burnworth, of Independence, Ky., will consist of 75 children of Earlinton composing the wedding party, the bride and groom and attendants being in evening dress attire for the occasion. In every respect it will furnish a delightful evening entertainment. As is always the case people will be interested in what the children do, and especially as they will be our children, and children of our friends. The price of admission will be 35 cents for adults and 20 cents for children under twelve.

NEW MANAGER

AT VICTORIA

Ben W. Robinson Back From the Farm, and Will Raise Coal

EARLINGTON MAN WHO HAS HAD EXTENSIVE MINING EXPERIENCE FOR YEARS

Ben W. Robinson, former general manager of the St. Bernard Mining Co., a coal mining expert and engineer, who learned the operating side of the business in the broad school of experience for many years under the late John B. Atkinson, has returned to his old line of work and will again make his home in Hopkins County. Mr. Robinson has accepted the position of manager of the Victoria Coal Co., taking charge yesterday. Mrs. Robinson has been here the past week and the family will move soon from the Missouri farm, where for many years Mr. Robinson has been raising corn and hay and cattle and cyclones. During the past several months Mr. Robinson has built a coal washer here and others in Tennessee, after his own patents, and he has besides been on some important engagements in Western Kentucky in the capacity of coal expert and mining engineer. Since leaving Earlington some years ago, Mr. Robinson, had for several years, charge of important coal mining operations for the Mexican government and for important railroad interest in Mexico, afterward locating in Missouri where he has enjoyed rural life among the snow-mes. And now its Kentucky again, where he and his family will be among many good friends. The family residence will be at Victoria.

A new and powerful compressed air plant has just been installed at Victoria and Mr. Robinson will undertake to further development of the already excellent mine.

Many an Earlington Reader Will be Interested

When people read about the cures made by a medicine endorsed from far away, is it surprising that they wonder if the statements are true? But when they read of cases right here at home, positive proof is within their reach, for close investigation is an easy matter. Read Earlington endorsement of Doan's Kidney Pills.

Monroe Davis, butcher, Earlinton, Ky., says: "About two years ago I used four boxes of Doan's Kidney Pills for kidney trouble and found them very beneficial. For quite a while I had been afflicted with weak kidneys and my back ached intensely. Seeing Doan's Kidney Pills highly recommended in the papers, I got a supply from the St. Bernard Mining Co., Incorporated, and their use as directed cured me in a short time. I can highly recommend this remedy."

Fire District No. 1 comprises all that territory North of Main St., and West of the R. R., (e. g. the City Hall, Round House, F. B. Arnold's residence, Pump House, etc. etc., are in District No. 1.

Fire District 2, comprises all that territory North of Main St., and East of the R. R., (e. g. the St. Bernard Store, Barnes, Coward & Co., P. H. Whalen's residence, Masonic Temple "Logtown" etc. etc., are in District No. 2.

Fire District 3, comprises all that territory South of Main St., and West of the R. R., (e. g. the Post Office, Goodloe's restaurant, Chas. Cowell's residence, Mrs. Harriet Browning's residence, Esq. Jas. Priest's residence, etc. etc., are in District No. 3.

Fire District 4, comprises all that territory South of Main St., and East of the R. R., (e. g. the Peoples Bank, Victory Building, C. M. Henry's residence, Catholic Church, New Methodist Church, etc. etc., are in District No. 4.

Each telephone subscriber in these Districts has been furnished with a card showing the number of Fire District in which each phone is situated,—these cards directing that, in case of fire, Central Telephone Exchange be informed of District Number and name of house "on fire." The Central operator will in turn notify L. & N. Round House, which will give the alarm.

The Round House whistle will in the future give the official alarm, and this alarm consist of a series of short blasts followed by one, two, three or four long ones, according to the district in which fire is located,—these long blasts indicating the district. This alarm will be repeated as seems necessary. The L. & N. locomotives will not give the alarm unless an engineer or trainman should first discover a fire (i. e. should see it before the regular alarm had been given)—or, in the event the regular Round House alarm should fail to arouse the fire Department at night.

We looked up the word GEM in the dictionary Not that we did not know what the word meant before, or how much it will soon be mean to our patrons. Mr. Webster defined the word as

A Jewel (They sparkle with life)

A Precious Stone (Leave none unturned)

Any Perfect Object (Mr. Webster was some prophet)

Our own idea is that after you have seen The Princess of Lorraine (the first Gem) you will agree that it is near a perfect picture as human power can make it.

TWO REEL GEM

Necessity For "Best" Teacher In Each School District

By JOHN B. M'FERRAN, Chairman Educational Committee, Louisville Commercial Club

III.

A FRIEND of mine interested in schools happened in Boston not long since and in going about investigating the city's schools, on reaching the lowest and poorest part of the city, was surprised to see going up a splendid, beautiful school building to cost \$375,000. He said, "Why on earth do you put such a handsome and costly building in this part of the city?" The answer was, "We want to make good, intelligent citizens out of these children, and we think this one of the important ways of doing it."

I should like to know why we pursue the unbusinesslike, illogical and absolutely unfair method of offering three kinds of teachers' certificates, especially now as the counties have the right to tax themselves up to 20 cents on \$100 for general school purposes. ARE WE DELIBERATELY TRYING TO MAKE THREE CLASSES OF CITIZENS—THE INFERIOR, THE MODERATELY GOOD AND THE BEST? In a true democracy there is no use or room for classes. Ought not our efforts to be addressed to the one object of making an average intelligent good citizenship?

Under present arrangements we are compelling the poorer sections of our counties to employ third-class teachers whose capacity will not suffer them to go above a wage of \$30 to \$40 per month, while the cities and towns and wealthier parts of the counties are paying \$60 to \$75 per month. Of course this higher pay and better environment attract the best teachers, those holding the first class certificates. Now, this is manifestly unfair and very unwise.

THE BOYS AND GIRLS IN THE LESS WEALTHY PORTIONS OF OUR COUNTIES ARE ALREADY SUFFICIENTLY HANDICAPPED BY THEIR POVERTY AND IGNORANCE. WHY, THEN, UNDER HEAVEN, ARE THEY FURTHER HANDICAPPED BY CHEAP, INCOMPETENT TEACHERS?

There ought to be, as soon as the proper legislation can be had, only one certificate granted to all teachers and that of the first class. If there are districts unable to pay in full for a first class teacher let the county board make up the difference out of the county fund, for which it was intended. THESE POORER DISTRICTS PAY THE SAME RATE OF TAX, SO FAR AS THEY HAVE TAXABLES, AS DO THE WEALTHIER SECTIONS, AND THEY SHOULD HAVE A FAIR AND LIBERAL DEAL.

This is not only generous and unselfish, but it is Christlike, and it is a wise business proposition to make good and intelligent citizens out of these less fortunate. I think when the people consider this question deliberately they will see the folly of present methods and demand a change and will get it. Therefore it would be wise for teachers to prepare themselves to get first class certificates, and I think they have no time to lose because the change when started will come quickly. The state has two normal schools and the university whose business it is to prepare teachers.

Not 25 per cent of the teachers of the state are taking advantage of these opportunities, and many of them will be left out when the change comes. I am hoping to see the day when our teachers will be better paid, but when that day dawns it will bring with it also an undeniable demand for better prepared teachers.

Logic Hard to Patson.

A Chicago woman had her husband arrested for disorderly conduct because he refused to kiss her. The ways which some women have of inspiring affection and its demonstrations can be accounted for only by the secret and mysterious processes of feminine logic.

Oil From Grape Stones.

Grape stones yield an oil similar to those of the olive. They are used in Italy in the manufacture of soap and for lubricating and lighting. France alone, it is estimated, could yield from 1,000,000 to 10,000,000 gallons of this oil per annum.

CURIOUS USES FOR PAPER.

Some of Them Are Bullets and Boats, Houses and Even Stoves.

Paper can be made from nearly anything, and nearly anything can be made from paper.

With compressed paper are made wheels, rails, cannon, horseshoes, pistons for guns, bicycles and asphalt tubes for gas or electric wires.

With wood pulp and zinc sulphate there has been an attempt in Berlin to make artificial bricks for paving. After subjecting them to a pressure of 2,000 tons per cubic centimeter they are baked for forty-eight hours. In similar fashion are made roofing tiles and water pipes. Telegraph poles made of rolled sheets of paper are hollow, lighter than wood and resist weather well.

In Japan they make of paper clothing, window frames, lanterns, umbrellas, handkerchiefs, artificial leather, etc. In the United States and even in Germany are made paper coffins. In Germany they make paper barrels, vases and milk bottles.

Straw hats may now be bought into which enters not an atom of straw. They are made of narrow paper strips dyed yellow. Artificial sponges are made of cellulose or paper pulp. One man has taken out a patent for paper thread to be used in sewing shoes, and a brand of artificial silk is made on a basis of paper pulp.

The use of paper in industry may be indefinitely extended. It is employed to make imitation porcelain, for bullets, shoes, billiard table cloth, sails for boats, boards for building, impermeable bags for cement and powdered substances, boats and vessels for water. There has even been made a paper stove which is said to have stood two fire well. Cellulose may be used to prepare a waterproof coating that may be applied like paint. Whole houses have been built of paper. In Norway there is a church holding 1,000 persons built entirely of it, even to the belfry.—London Tit Bits.

WHEN SPAIN GAVE UP CUBA.

The Drama That Began With Columbus Ended in Sorrow.

Arriving in Havanna on the afternoon of Dec. 31, 1898, the day before Spain surrendered the island, I presented to Major General Ludlow a letter of introduction from the son of one of his friends and asked for a pass which would enable Mrs. Thayer and myself to see the next day's ceremonies at the palace. The pass was presently forthcoming.

It was five minutes to 12 next day. At that instant rose the solemn strains of the Spanish anthem. As it ceased there was a moment's silence. Then up through the casements came the "Star Spangled Banner," and the procession which had formed below wound its way through the great portal and up into the room where we were. Major General Brooke and the officers under his command, their dress uniforms and yellow sashes a bright note of color, entered first. Then came the swarthy Cuban leaders, their uniforms less splendid, but their dignity beyond question, and last of all, General Castellanos and his staff.

The scene was too painful to prolong. A moment of formalities and it was over, and the defeated said farewell. It was an ordeal for a man of Castellanos' temperament. Tears came to his eyes.

"I have been in many battles," he faltered, "many trying situations, but never in a position like this." Then, as we watched, the little handful of Spanish troops, headed only by life and drum, set their faces toward Spain. The drama which began with Columbus was finished.—John Adams Thayer's "Out of the Rut."

Well Answered.
On one occasion a young British attache was one of the guests at a state banquet in St. Petersburg, and during the banquet he had the misfortune to upset his wine glass and make a huge red stain on the white tablecloth. The czar happened to be looking in his direction when the disaster occurred and, noticing the youngster's painful embarrassment, he asked rather cruelly, "Do they often do that sort of thing in England?"

The trodden worm turned.
"Yes, your majesty," came the swift reply, "but nobody takes any notice of it!"—London Answers.

A Dangerous Dive.
In his reminiscences of fifty years of naval life Admiral Kennedy tells this: "An absurd adventure happened to two of our men at the opera. They were in the gallery and were both considerably the worse for liquor, when one of them fell over the railing into the pit. His chum, under the impression that he had fallen overboard, took off his coat and dived after him. Wonderful to relate, neither of them was killed. One broke his leg, the other was unburnt."

Ominous.
"Is the boss going to give you the raise you asked for?"

"Well—er—I'm afraid to say, I told him I thought my pay should be commensurate with the amount of work I do, and he promptly agreed with me."—Philadelphia Press.
